

The structure consists of 2 tubular steel supports Ø 50 mm equipped with armrest; 175 cm in length. The seat and the backrest are composed of 2 modules which consist of twelve Nordic Pine wood planks pressure treated with non-toxic salts, section 60 x 30 mm. The planks are treated with non-toxic high penetrating stain, which are particularly ideal for external use thanks to special protective filters against UV rays. Galvanized steel bolts. Supplied in an assembly-kit. Galvanized metal structure, powder coating at 180°C. Supports colour: matt black. Anchorage system: to be fixed on the ground.
